

PaintingSkillsAcademy

Our school is committed to professional development and we strive to bring the quality of our education up to international standards. In line with our aspirations, we participate in the “PaintingSkillsAcademy” program as the only Hungarian institution.

What does “PaintingSkillsAcademy” mean?

The PaintingSkillsAcademy is an Erasmus+ project co-financed by the EU under the Sector Skills Alliance framework and coordinated by SBG Dresden (DE)”.

The project started in December 2019 and will last for 3 years with the participation of 23 partners from 13 countries.

It aims to merge all the other previous projects for the sector with the establishment of a structure for initial and further training for the European Painting trade under the umbrella of UNIEP.

The main activities developed within the project include the description of quality standards and units of learning outcomes (level 1-6 EQF), the description of curricula, the recognition of acquired competencies and the correct assignment to the PSA competency level on level 1-6 EQF (methods / procedures) and the formulation of specific PSA training offers (for the different target groups at the different EQF levels, for learning at different learning locations in Europe).”
